Dear Parents and Children,

I am writing this letter to persuade you all to visit LPS Market on Monday 15th July at 3pm. I am positive that you will love our market and here are my reasons why.

Firstly, one of the stalls in our market is completely safe for the environment! Some of the children in Year 3 have been making some beautiful homemade items such as bookmarks and bags. But to make it even more exciting and environmentally friendly, they have made them out of old school uniform.

Secondly, our market, amazing and spectacular, is also really good for your health and wellbeing. If you come to our market, you will be meeting new people, getting outside, having fun and getting off screens. We are also doing a health and wellbeing stall to remind people of all ages to exercise and eat healthily. Surely by now you would love to come to our marvellous market?

Lastly, the Year 3 children, dedicated and hardworking, have been working very hard to design all the items for the market, such as clay jewellery, loomband bracelets and lots more. All of our items are on sale for reasonable prices. Me and my friends have loved working with clay.

I am so excited to see you at Year 3's extraordinary market next week!

Dottie Hellier
