

My Super
Evaluation Sweyns-
ey

By Nico James

Introduction

Our topic was Sweyns-ey.

Our topic was about the Vikings living in Swansea.

We came up with questions like

- Were there any famous Vikings?*
- What did the Vikings farm?*

Questions Matrix Activity

In this activity we used the LPS Question Matrix to come up with questions that we wanted to research.

I enjoyed the activity because I enjoyed thinking about what to research.

My Favourite Activity – Viking Inventions

My favourite activity was researching Viking inventions. We drew them then wrote about what the Vikings used them for and what we use them for now. I enjoyed this activity because I thought it was interesting.

Viking Timeline

In this activity we created a timeline of the Anglo-Saxons and the Vikings. We looked at famous moments from those times and we drew pictures to go with it. I enjoyed this activity because I got to learn about famous Viking moments.

Viking Distances

In this activity we calculated the distances that the Vikings travelled around the UK.

We did tower sums to calculate the distances and I learnt how far the Vikings travelled around Wales and the UK.

The Runes Activity

In this activity we wrote the alphabet in Runes and then we wrote sentences in Runes and gave our books to a friend to solve.

We created more codes for other people to solve. I enjoyed this activity because we got to learn the Runes.

Viking Poem

In this activity we wrote a Viking poem. Every new verse of the poem started with The Vikings Came To Wales. The poems had to rhyme.

We drew pictures next to the poem. I learnt how to use rhyming words and I enjoyed writing the poem.

Next Steps

I have developed my ICT skills loads and also got better at handwriting throughout the topic.

In the next topic Swansea Market, I would like to keep developing my ICT skills. I have really enjoyed this topic and I can't wait for the next one.
