

The Angles

Come and meet the Angle
family...

L.O. To recognise the different types of angles.

The Angle Family

“Hi! We’re the Angles, we’re one family, but all very different, so let us tell you a bit about ourselves!”

Mr. Obtuse Angle

This is Obtuse.
He's the husband
of the family.
He's bigger than
Right and Acute.
He's always
inside, and he
always measures
between 90° and
 180° (depending
on how much
dinner he's
eaten!)

Mrs. Right Angle

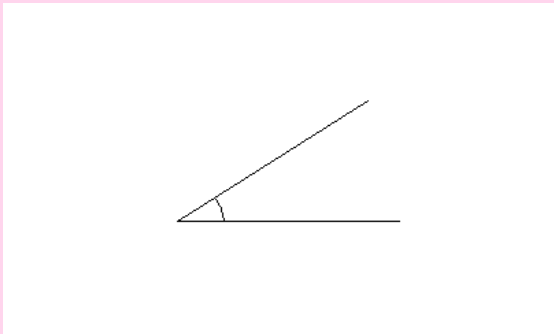

This is me. I'm Mrs. Right Angle. I always measure 90° , my favourite shape is a square, and whatsmore, no matter what my husband tells you, I'm *always right!*

Baby Acute Angle

This is baby Acute angle. Isn't he cute?! He loves a hug, and always has his arms out for cuddles! He's the smallest of the family, measuring less than 90° .

Reflex Angle

This is our pet dog, Reflex. He's always outside. He's only a pup at the moment so he measures 180° , but he can grow up to 360° ! So he's definitely the biggest angle. You'll never see him without that ball in his mouth either, horrid thing!

$> 180^\circ$

So, now you've met us, let's see how well you know us...

Who am I?

I always measure less than 90°

I'm the smallest angle

I'm very **cute!**

I'm....

Who am I?

I'm always outside

I'm the biggest angle

I can measure
between 180° and
 360°

I'm...

Reflex Angle

Who am I?

I always measure
between 90° and 180°

I'm always inside

I'm bigger than
Right and Acute

I'm...

MR. Obtuse. Angle

Who's left?
