

How to use the Description Cards

Choose a card and ask the child or group each of the questions about the picture. Once the children can answer the questions you are ready to move on to either of the following games:

Guess what am I: Place some cards face down on the table. The first player takes a card and without showing it to the group describes it for the group to guess. Play passes to the player who guesses correctly.

Similarities and differences: Choose two cards and place them side by side. Work through the questions deciding what are similar and different features between the two cards.

daffodil

Where do you find it?
